

**NOTICE TO DESTROY NOXIOUS WEEDS
VILLAGE OF COLOMA**

Notice is hereby given that any person owning, occupying or controlling land within the Village of Coloma shall destroy all noxious weeds on the land

Noxious weeds mean weeds and plants known as Canada thistle, leafy spurge, creeping jenny, pigweed, ragweed and all other forms and types of weeds and grasses or herbaceous plants that are useless and without special beauty or growing to the injury of a crop or desired vegetation or to the disfigurement of a place or underbrush. Noxious weeds are defined in Coloma Village Ordinance 286-6 and § 66.0407 Wis. Stats.

If any person shall fail or neglect to destroy any weeds as required in this section, the Village will send notice, then without further notice, destroy or cause all such weeds to be destroyed and cause the cost of such summary destruction to be charged to the owner of the property upon which such weeds had grown. The cost of such destruction shall take into consideration the reasonable wear and tear on the machinery and equipment necessary for such destruction. As provided by state statute and local ordinance, the weed commissioner, his agents, representatives and employees, may enter upon any lands upon which any weeds are growing and cut or otherwise destroy them, without being liable to an action for trespass or any other action for damages resulting from such entry and destruction, if reasonable care is exercised in the performance of the duties imposed in this division.

For questions on weeds and compliance with this ordinance, please contact Coloma Village office, 155 N Front St., 715-228-2871
